

ATTENTION

Riverton

curbside

customers

Please throw all other brochures you have received from the City of Riverton away. As of November 1, 2016, the attached brochures show the recyclables the City of Riverton will take at curbside **only**. The most significant change is all Neighborhood Drop-off areas will be removed. The City will only offer Curbside recycling to its' residences. You are also able to take your recyclables to the CES facility at the end of East Park by the Baler Station. Another major change is that **All Other Plastics** are no longer accepted in the City of Riverton recycling program. Please watch Channel 191 or check on our website at www.rivertonwy.gov for current information on the Curbside Recycling program. We will also show which recyclable is currently being collected.

If you have questions regarding the City of Riverton Curbside Program, call the Recycling Hotline, 307-857-7744. If you have questions on recycling in general, you can call either the Recycling Hotline, CES, or the Fremont County Solid Waste Disposal District.

Riverton Curbside Program

Week 1: PAPER

Maximum Container (Not Cardboard) Dimensions:
19.75" L x 15.75" W x 13.5" H
or 18 gallon capacity
